SUPERVISED VISITS OR EXCHANGES – POLICIES & PROCEDURES, ACKNOWLEDGEMENT & SERVICE CONTRACT

Services Provided:

Our primary service is to provide the supervision of court ordered parent-child visitation, as well as assisting in the reintroduction of a parent in to a child's life. There are many situations in family law cases (or other cases) affecting the parent-child relationship, and the need arises for a neutral third party to supervise visitation between a parent, or another party, and a child or children. Reasons for referral include sexual, physical, and emotional abuse of a child, parent alienation syndrome, domestic violence, kidnapping, drugs and alcohol abuse by a parent and mental illness of a parent.

We have a great deal of experience in dealing with family trauma and as an organization, we have over 20 years of experience. All staff with our company are family law experts, off duty or retired law enforcement personnel, supervised college interns, court professionals, or mental and/or health and/or sociological professionals. We also have assistance from those who work as drug and alcohol and/or abuse counselors.

Services are established by mutual consent of all parties involved and can only continue because of cooperation by all parties.

All additional persons to be present at visitation periods shall be pre-approved or the visitation will be denied.

Initiating Services:

Services begin with an intake interview in which each client completes paperwork, learns about policies and procedures along with an assessment of the family situation to ensure proper services to each individual family. This interview provides the forum where questions are answered and a cooperative working relationship is established therefore creating a foundation for successful supervision. To schedule an intake interview, please contact **CoreTsolutions** at CoreTsolutionsEnroll@yahoo.com or call our office at (559) 400-5425.

Guidelines for Supervision When Sexual Abuse Has Been Alleged

If the Court has ordered supervised visitation because of allegations of sexual abuse of a child, it is not the supervisor's role to validate or invalidate such allegations. However, it is important to create an environment that is safe and will operate with a structure which serves to protect all parties.

The following are the standard behavioral/physical boundaries which must be maintained between a child/children and parent who has been allegedly sexually abused the child/children:

1. The child may not sit on the parent's lap.
2. No full-body frontal hugging is permitted.
3. No kissing on the lips is permitted.
4. No wrestling or tickling is permitted.
5. Only English may be spoken during the visits unless CoreTsolutions' supervisor is fluent in the same language.

6. All dialogue between the visiting parent and the child/children must be loud enough for the supervisor to hear. No whispering or speaking in the ears of the child.
7. The supervisor must be able to see the child/children at all times.
8. The visiting parent may not change the diapers or the clothes of the child/children, and may not be present in the room while the child is being changed.
9. The visiting parent may not examine the child/children physically, ask questions about intimate body functioning, discuss any sexual topics or body parts, or tell sexual jokes.
10. The child cannot be transported to or from the visit by the alleged perpetrating parent.
11. The visiting parent may not assist the child in the bathroom.

It is important that the visiting parent understands the boundaries, and have a plan for dealing with them, before visit begin. Both the child and the visiting parent will be more comfortable if the parent takes responsibility for adhering to the boundaries without intervention. If the visiting parent does not adhere to the rules of the visit, they are at risk of losing their rights to future visits with the child.

We need a minimum of 10 days to prepare the notes once the Note fee is paid.
